Time is more valuable than money. We can get more money but we can not get more time. Time is free but it is priceless, we can not own it, but we can use it, we can't keep it but we can spend it and once it's lost we can never get it back. The wealth of time is the only wealth that is more valuable than human resources. The reason why one man is great and another man is living in mediocrity is simply because one understood the value of time while the other did not.

JoyBell said that "Lots of people wait around "for the right time". People don't know that there is no such thing as the right time. Time is never right nor wrong. The only negative factor of time is that you can lose it and the only positive factor of time is that you can seize it."Life is about time. Spend more time than you do money on others. Give time more than any other gift. Also, take time when you need to. Take time for yourself when you need it. Sometimes time is all we have with the people we love the most. I ask you to slow down in life. Take your time, but don't waste it.

No man can achieve success if he didn't understand the value of time. Before leaving this earth, everyone should understand the value of time. The person who understands the value of time will respect time. The person who doesn't understand the value of time postpones the work that is supposed to be done within that time or does nothing even he/she a time in hand. Many of us waste our time simply at different points in our lives. Some people don't complete the work until they are near to the deadline, Few students do not study when they have sufficient time in their hands and they think that they can complete and cover the complete syllabus when exams start. These are examples of people who don't understand and respect the value of time.

Why time is more precious? We can earn the money that we spent but we can't get back the time if we lost. So this makes the time more valuable. Time is the most precious and valuable thing in the world. To utilize the time effectively one must consider some points strongly those are keeping goals, preparing worklists and tasks, inculcating good habits, and giving more priority to the goals, tasks, and good habits. If a person strongly fixes in mind to do these things, he is forced by his mind to do tasks regularly, to achieve goals, and to follow his habits. Then all these precious things (achieving goals, performing tasks, and worklists) become his lifestyle.

Most people do not understand the value of time and they give more priority to money than time. Indeed they don't understand and realize that it is time that has allowed them to earn money. To utilize the time wisely, First of all, think about the value of time, understand it and analyze or examine how you are utilizing your time, if you are not utilizing your time wisely, then start doing some productive activities which are useful to shape your life, do regularly and consistently. Then it becomes your lifestyle to value the time.

So be strong and hold some
Give some and take some

Time is water, don't let it dry
For once it's gone, there's nothing but to cry

So be quick and keep some
Use some and gain some

Time is money don't let it fly
For once it's gone, there's nothing but to cry

So be wise and grasp some
Give some and gain some

Time is precious don't let it pass by
For once it's gone, there's nothing but to cry.
