

Essay on Startup India and Standup India :

STARTUP INDIA - It is a program to promote new ventures and initiatives.

STANDUP INDIA - It is an initiative to promote entrepreneurship among the Schedule Caste and Schedule Tribes and the women entrepreneurs.

Startup India and Standup India are the schemes by the Government to encourage superior financially viable growth and improvements. They are the systems that allow people to do entrepreneurship. Startup India and Standup India is an initiative scheme launched by the Honorable Prime Minister Narendra Modi on 15th January in the year 2016. On the occasion of Independence day, this campaign was declared. This forward step encourages young entrepreneurs to employ in private enterprise for an enhanced living and bright future.

This scheme will give many job opportunities for the unemployed and brilliant minds. On average, 1.25 lakh bank branches will motivate the youth by providing loans for entrepreneurs. The objective of the Startup India and Standup India campaign concentrate on primary aspects they are, generalization and handholding, financial support inducements and inventiveness, a joint venture with the industries that are comparatively up-to-the-minute.

Startup India

This is a scheme that has originated ten years ago and has its headquarters in India. The startup India is an initiative, that the Government can instigate agendas to facilitate Indian Entrepreneurs to build portable start-ups.

In this respective scheme, ten thousand crore financial supporting pools are permissible to the start-ups and plans. Under this scheme, people will not encounter any of the examinations for the first three years of the maneuver. People are also very benefited by this campaign, as they are free from paying the Capital Gain Tax for the earliest three years. Also, the campaign provides and promises self-certification compliances, formation of a ground-breaking focal point, they are free from paying taxes for the initial three years, and the structure of new systems to offer IPR fortification to new-fangled projects.

The Startup India campaign eradicates the unemployed in the rural and the urban areas. The young youth will have many opportunities for enhanced life. Entrepreneurship has to turn out to be an extremely victorious, far, and wide esteemed occupation in the past few years. Young Aspirants always find it hard to get superior jobs and also if they have the desire to have a private enterprise, their economic background may not be stable to set up.

Young people are more innovative and are capable to handle tricky situations. They are filled with new thoughts and ideas. To motivate them the Government has come up with the campaign. Through the support of the government, inhabitants will be able to construct the preeminent business assets.

### Standup India

It is also a campaign that is been launched by the Government to the people who seek support for entrepreneurship, although the initiative focuses more and is only accessible to the Scheduled Caste, Scheduled Tribes, and women Tribal Entrepreneurs. This scheme was launched by Prime Minister Narendra Modi on the 5th of April in the year 2015.

The rural and the urban communities of India and the women are given the most importance. The backward classes are been concealed, since ancient times by the ostensible higher castes. This initiative had been a way to escort light in their lives. The suppressed classes and the women belonging to the castes of SC and ST are given importance. This scheme extends the bank loans ranging between ten lakh and one crore in Indian Rupees for the Schedule tribes and Scheduled Caste people and the women who have the desire to accomplish new startups.

Conclusion: This initiative by the Government will lay a foundation and be a supporting system to the small-scale industries and the new startups. The economy and the progress of the nation along with the well-being of people are reflected by this means. This will encourage and motivate the women in society to be self-dependent.
